ABOUT

Web developer from Tacoma, WA with 2+ years experience. Specializes in React, React Native, and general Javascript development; proficient in much more!

PROFESSIONAL EXPERIENCE

Web Developer

VSG Marketing, Tacoma WA

August 2020 - present

- Build and maintain responsive, scalable websites for clients using Wordpress and a multitude of page builders, plugins, payment processors and SEO/analytics tools
- Lead in XMPie technology management, including: Building and maintaining React storefronts, creating custom reports and workflows via SQL, and merging variables on web-to-print and digital assets in Adobe InDesign for client customization on the storefront
- Lead and educate my team on cross-platform HTML email development and strategy, specifically for conversion and marketing via Sharpspring CRM

API Engineer

bidChuck.com, Lakewood WA

November 2021 - present

- Scale and manage a MongoDB database
- Develop API endpoints using Typescript, NodeJS, and Hapi
- Collaborate with my team in Azure DevOps
- Write and run tests with Jest
